About Simplify Home

- In 2014, Simplify Home began with a simple belief — design isn't just about how it looks; it's about how it feels. A home should feel like you — not just follow trends.
- We started this journey to make home design easy, personal, and honest — for people tired of confusing options, unclear costs, and spaces that didn't feel like their own.
- That's why we begin by listening. We ask about your life, your routines, your style — then design everything from scratch to reflect who you are. With transparent pricing, clear plans, and expert execution, You stay involved, without the stress.
- Since 2014, we've completed 500+ homes across India, transforming over 1 million sq. Ft. Our team of 100+ experts ensures every detail feels just right.

Customer Journey

Core Values

Client Delight

We don't just aim to get the job done — we want you to genuinely enjoy the journey. Every space we create is personal, and we make the experience justOur as thoughtful and stress-free.

Clear Communication

We believe good design starts with honest conversations. We keep you informed, involved, and never in the dark — from the first meeting to the final handover.

Timely Delivery

Your time matters. We plan carefully and stay disciplined with timelines so your project moves forward without delays or last-minute surprises.

Smart Use of Technology

We use the right tools to bring clarity to your vision — from 3D visuals to accurate planning. It helps us work better, faster, and keeps things smooth for you.

Transparent Pricing

We don't take commissions from vendors. That means our advice is always in your best interest, and you're free to choose what fits your style and budget.
